Old style fullplate. Roofless.

Look at these two pixtes and use your own reasoning. The roofless has suctions on both sides (3), soft rubber next to sore guma. Designed to be put in immediately after extraction. It does not touch the hard hope in the roof of the mouth, therefore, it settles with the gums and makes its own bed. No full roof plate can compare with the fit of this plate, as it settles into its hed, lighter, more tongue room, clearer speech.

Dr. Williams has been making this plate for ten years, and is thoroughly familiar with its construc-NOTE OUR LOWEST PRICES

EXPLOSION ON DESTROYER IS FATAL TO A FIREMAN

Experies on Destriction

Key West, Fir., Sept. 28.—The destroyer Greene, which was dirabled Sunday by a boiler explosion, was towed into port here last night. James Juseph Quinn, of Philadelphin, fireman, was ingrantly killed, two other men severely scaled and several others slightly injured. The two men described as severely introduced by steam were said on arrival here to be in a favorable condition. Their names were given a Andrew Said McGregor, of Vineland, N. J., and C. W. Wykert of Soidler, Rus., both fireman.

Once upon a time there was a fellow who published all the fairy tales he could, and took Grimm delight in it - Exchange.

Il Paso's "Pay Up Week" Begins Tomorrow Everybody—Attention!

There is logic, wisdom and righteousness in this "Pay Up Week" Movement. It is good business for the merchant, the city as a whole, and for the slow-paying individuals to whom the campaign is directed by the Business Men's Protective Association of El Paso. It will start the dallars rolling and some of them will come back to the man who pays.

Credit is a convenience based on confidence—not in your ultimate desire and intention to pay your bills, nor in your financial ability, but in your willingness and ability to ACTUALLY PAY them promptly when due.

We all expect to pay up "some time." But this "some time" is the cause of all our credit troubles. There is no "some time" clause in the credit agreement with the store you owe. Business or social standing does not give you the prerogative of adjusting your obligations just when you please. Promptness is the best credit recommendation.

A banker will lend money to a poor man who pays promptly; he will not lend to his rich neighbor who allows his obligations to run into the overdue stage. The same sort of record establishes the credit of a customer with the merchant.

Members of the Business Men's Protective Association have decided to ask all customers here-after to pay their accounts when due. If they do this their accounts will be welcome in El Paso

If they do not do this they will soon find that their accounts are undesirable, because the Association cannot truthfully recommend them as "prompt pay," no matter what their financial responsibility may be.

PUT YOURSELF IN THE "DESIRABLE" CLASSIFICATION THIS WEEK BY PAYING UP YOUR PAST-DUE BILLS. DO IT TODAY!

Pay Up Week-October 1 to 8 The Business Men's Protective Association of El Paso

Products that Packers Sell

Their Number Grossly Exaggerated

The Federal Trade Commission has published a list of some 640 articles said to be sold by the packers.

This list is ridiculously padded in order to scare people into the belief that the packers are getting control of the food supply of the nation.

For example, the list includes not only "beef sides" and "beef cuts," but also over 60 other items of beef products and by-products.

Over 90 articles listed are not sold to the outside trade but are raw materials and supplies, such as brick, cement, etc., used by Swift & Company in carrying on its business.

Glaring duplications appear, such as "sardines" and "canned sardines"; "butterine" and "oleomargarine"; "dried sausages" and "dry sausage," etc.

The list includes 37 kinds of sausage; 4 different kinds or preparations of beef tongue, etc., etc.

Simmered down, Swift & Company handles in addition to meats and meat by-products, only butter, eggs, cheese, poultry, canned goods, lard substitutes, and to a very small extent, dried and salt fish. And the proportion which we handle of the total supply of any one of these is absurdly small.

Do you want to be fooled by such misleading and ridiculous statements of the Trade Commission? Do you want radical legislation based on such absurd
